Enhanced Beauty Salon Vision

At the *Enhanced Beauty Salon* our objective is to offer each customer a unique, non-toxic hair and skin care experience that is personalized to meet your specific needs. Since our inception, our skilled personnel have strived to maintain the highest industry standards, while utilizing high-quality products to provide our clientele with salon services that consistently meet or exceed their expectations. The *Enhanced Beauty Salon* is another key element of the Natur-Tyme Difference, which our customers have come to rely on from our store for more than 30 years!

The Enhanced Beauty Salon Difference

- We proudly use Organic Color Systems hair products as the foundation of our hair color services. Organic Color Systems is 100% ammonia-free; the oil-base of the color is alkaline, which raises the pH of the hair, ultimately contributing to less fading and a natural feel and shine.
- We use jane iredale Mineral Makeup, recommended by dermatologists and skincare professionals. It protects against harmful UVA and UVB rays; contains no fillers, perfumes, dyes, or chemical preservatives.
